BUDGET *savvy* BRIDE

# CONGRATULATIONS!

Your sweetie popped the question and now you're engaged!! After you've sufficiently basked in your newly-engaged love bubble, you'll get to start planning your big day!

Many couples are unsure of where to start when it comes to planning their wedding. We created this fun little card game and worksheet set to help you and your fiancé(e) figure out where you both stand on the big and small details of your special day.

## HOW IT WORKS

Print the set of cards (pgs 3-6) using your home printer. Cut the cards along the black lines using a paper trimmer or Ruler and Craft Knife. Stack the cards in a pile in numerical order.

Print two sets of the worksheets (pgs 7-10) so both you and your fiancé each have a set to fill out.

Take turns reading the questions aloud from the question cards. Write your answers on your respective worksheets.

When you're done filling out all the answers, take some time to compare your responses to see where you overlap or differ.

You can use these responses as a guideline to determine the style, setting, and even budget for your big day!
